Location of new Eastern Europe plant: Debrecen, Hungary

After thorough analyses, the decision has been made to locate Krones' new plant in Debrecen, Hungary.

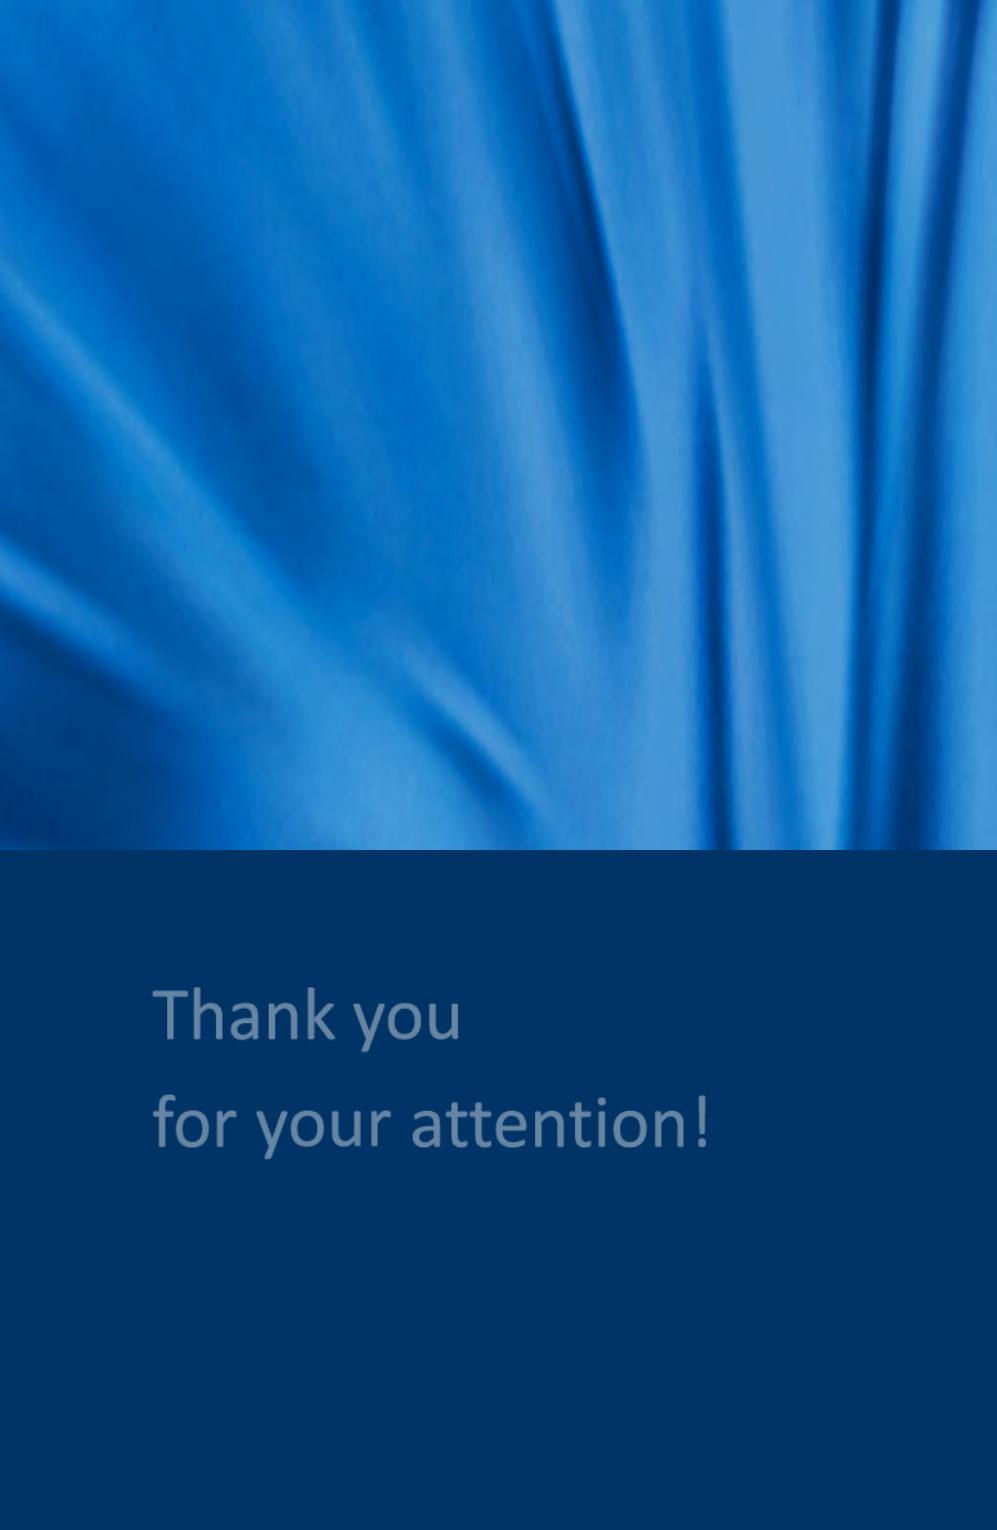

Debrecen is Hungary's second-largest city and the economic and educational centre of Eastern Hungary, with clear ambitions for continued growth. The selected location has an international airport and can be reached by car within only two hours from the capital, Budapest.

Besides excellent infrastructure and transport connections, the availability of qualified trained professionals within the region was a significant factor in favour of Debrecen as the location for a new plant. We plan to put the new plant into operation at the beginning of 2019.
